All-Inclusive Resort Planning	\$150

Turnaround Time & Deadlines

Travel planning takes thoughtful research—and timing matters! To give you the best options (and avoid last-minute stress), turnaround time depends on how soon your trip is and how complex the itinerary will be. These are estimates:

Package	Recommended Planning Window	How long until you receive your package details:
Getaway	At least 4 weeks before travel	5 business days
Escape	At least 6 weeks before travel	10 business days
Jetsetter	At least 8 weeks before travel	12–15 business days
All-Inclusive Resort	At least 2 weeks before travel	5 business days

Rush Requests:

Need it faster? Rush service may be available for an additional fee (starts at \$50). Rush requests must be approved and are subject to availability.

The earlier you reach out, the better your results. Planning last-minute trips often limits availability and pricing options, especially for group tours or in-demand destinations.

Why I Don't Book for You — and Why That's a Good Thing

More Flexibility – You're free to choose exact times, seats, room categories, or travel providers—without middleman restrictions.

Reward Points & Loyalty Miles – Book directly using your favorite credit cards and loyalty programs to earn miles, hotel points, or cashback.

Full Control of Bookings – You'll receive your own confirmation numbers and can manage changes, upgrades, or cancellations directly.

Important to Know

To help you plan smarter (not harder), here's what falls outside the scope of my services:

You will be completing your own bookings – I provide a clear, actionable guide so you can book independently, earn rewards, and stay in control of your plans.

I'm unable to provide on-call support during your trip – Some credit card companies provide concierge-style service, so you may want to check with them.

I'm not paid a commission for any recommendations – This ensures every recommendation I make is based on your preferences—not promotional partnerships.
