## Travel Strategy & Custom Itinerary Design

Custom travel planning for travelers who want expert guidance and a clear plan before they book.

### What I Do — and Why It Matters

Anyone can search Google or ask an AI for a list of hotels. What I do is different.

I help you narrow down the options, make confident decisions, and create a personalized itinerary that fits your travel style, budget, and pace. That's strategy — not a list of links.

When you work with me, you get:

- A real person who asks the right questions before making any recommendations.
- Curated suggestions based on your preferences — not what's being promoted.
- A clear, organized plan so you can book with confidence and actually enjoy the trip.
- No commissions, no partnerships — every recommendation is made with your trip in mind.

---

### Planning Consultation — \$65

A focused 30-minute strategy session to discuss destination ideas, itinerary structure, hotel options, travel timing, and transportation. If you book a planning package within 30 days, the consultation fee is applied toward the package price.

## Why You Book Your Own Reservations

I provide the plan. You do the booking. Here's why that works in your favor:

- You earn your own loyalty points, miles, and credit card rewards.
- You have direct control of your confirmation numbers and can manage changes or upgrades yourself.
- You choose exact rooms, seats, and travel providers without middleman restrictions.
- My recommendations are based entirely on what's right for your trip — not commissions or promotional partnerships.

One round of revisions is included with every package. Additional updates may be subject to a supplemental planning fee.
